

information about the service

nbn™ plan	minimum monthly charge	included monthly data	minimum term	nbn™ line speed
Ultra	\$89.00	Unlimited	1 month	nbn™ 100 (100 mbps download / 40 mbps upload)

The offer includes: A broadband data service over the nbn™ for residential use.

The offer is a bundle of services: No.

The offer requires mandatory purchase of Telecommunications goods from us: No.

Use of Barefoot's nbn™ plan requires a compatible modem/router. nbn™ plans delivered over FTTN/B require a VDSL-compatible modem/router. Barefoot can supply a [NetComm NF18ACV](#) nbn™ compatible modem for \$149.00 (includes delivery). Once purchased, this modem is non-refundable, other than in accordance with your rights under the Australian Consumer Law.

Available minimum term: 1 month

Included data allowance: Unlimited

Exclusions: Barefoot does not support any equipment or wiring at your premises beyond the network boundary point. When you connect to an nbn™ plan, some equipment or services at your premises may be impacted and no longer operate. These include medical devices, alarms, EFTPOS machines, lift emergency phones, email and fax services. Barefoot does not offer priority assistance.

Important limitations: Speeds achieved on FTTN/B nbn™ services can only be confirmed once a service is activated and depend on the maximum line sync rate of physical infrastructure connected to your premises. Services delivered over FTTN/B may not be able to obtain typical plan speeds. All requests to change the line speed of an nbn™ plan are free. Plan change requests can only be actioned before the start of the next bill cycle and you may only request to change your nbn™ plan once per bill cycle.

Important qualifications: Unless already connected, nbn™ may need to install its equipment in your premises. Standard installations of nbn™ equipment are performed without charge to you. If applicable, an nbn™ Greenfields New Development Charge is \$300.00. This may apply at a premise that is in a newly developed area or building and is not an installation fee, but an activation fee that will apply to the first nbn™ service connected at this premises. If applicable, an nbn™ New Copper Pair charge is \$299.00. This would apply on FTTB/N where an active PSTN/ULL phone line is connected and the FNN/ULL of this active line can't be provided.

information about pricing

The minimum monthly charge is: \$89.00 (all prices include GST).

A \$10.00 discount will be applied each month if there is an eligible SIM-only mobile service(s) on the account at the time of billing. If the eligible SIM-only mobile service(s) on the account is ported away to another provider or disconnected, and no active SIM-only mobile service(s) remain on the account, the discount ceases and the plan reverts to the standard monthly price. Excludes \$15.00 1GB mobile plan.

The total (minimum) cost over the plan term of 1 months is: \$89.00 plus any applicable connection fees for your particular situation.

Early termination charges: \$0 (Not applicable).
